

Mineral Bolus

Advantages of the Mineral Bolus

Advantages of the Mineral Bolus

- * Provides essential dietary elements and vitamins
- * Unique dosage system for a period of 4 or 6 months
- * Dietary elements are 100% absorbed
- * Utilization of the dietary elements is 100%
- * Controlled release per day is guaranteed
- * Easy administration, only once
- * Selectively applied (eg, only high-producing dairy cows)
- * For use with all types of livestock
- * Accurate
- * Reliable
- * Nothing remains inside the animal
- * Labor saving
- * Lower price compared to other mineral products available

Reasons for farmers to choose the Mineral Bolus

- * Improved fertility cattle
- * Lowering health issues (mastitis, milk disease, afterbirth)
- * Scientifically proven
- * Increased growth for young cattle

Mineral bolus provides a healthy and vital cow, which is highly productive, fruitful and sustainable.
