### 1. Identification of the product and of the company

#### 1.1 Product identification

|                               |   |
|-------------------------------|---|
| Product name                  | <i>Easy Gel</i>                               |
| Trade name                    | <i>Easy Gel</i>                               |
| Article code                  | EASY00106 / EASY00107 / EASY00108 / EASY00109 |
| Identification of the product | Mixture                                       |
| UFI                           | F470-S0GN-E006-K80V                           |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|                        |                        |
|------------------------|------------------------|
| Identified use(s)      | Ready-to-use care gel. |
| Use(s) advised against | Not identified.        |

#### 1.3 Details of the supplier of the safety data sheet

|                               |           |  |
|-------------------------------|-----------|--|
| <b>Company identification</b> | Name      | Holland Animal Care B.V.   |
| <b>Contact</b>                | Address   | De Leemkoele 2   |
|                               | Zip code  | 7468 DM  |
|                               | Town      | Enter  |
|                               | Country   | The Netherlands  |
|                               | Telephone | +31-(0)548-545520  |
|                               | E-mail    | <a href="mailto:info@hollandanimalcare.nl">info@hollandanimalcare.nl</a> |

#### 1.4 Emergency telephone number

|                                   |  |
|-----------------------------------|--|
| <b>Emergency telephone number</b> | The Netherlands : National Poisoning Information Center - Bilthoven<br>TEL: +31(0)30/274.88.88<br>Belgium : Antipoison Center - Brussels<br>TEL: +32(0)70/245.245<br>(Only for the purpose of informing medical personnel in cases of acute intoxications) |
|-----------------------------------|--|

### 2. Hazards identification

#### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) no. 1272/2008:

|  |   |                 |
|--|---|-----------------|
| <h1 style="font-size: 2em;">MSDS</h1> <p><b>MATERIAL SAFETY DATA SHEET</b></p>   | 0.1 Product   | <i>Easy Gel</i> |
|  | 0.2 Status  | Active          |
|  | 0.3 Version   | 5               |
|  | 0.4 Version date  | 14-01-2022      |
| <p>Eye Dam. 1; Serious eye damage/irritation; category 1; H318<br/>         Skin Irrit. 2; Skin corrosion/-irritation; category 2; H315<br/>         Skin Sens. 1; Skin sensitisation; category 1; H317<br/>         Aquatic Chronic 3; Hazardous to the aquatic environment - chronic; category 3; H412</p> |   |                 |
| <p><b>2.2 Label elements</b></p>   |   |                 |
| <p><u>Labelling according to Regulation (EC) no. 1272/2008:</u></p>  |   |                 |
| Hazardous component(s)   | <p>L-(+)-lactic acid;<br/>         reaction mass of 3,6,9-triazaundecamethylenediamine and copper sulphate;<br/>         reaction mass of 2,2'-iminodi(ethylamine) and copper sulphate;<br/>         reaction mass of copper sulphate and trientine;<br/>         tea tree oil.</p>   |                 |
| Hazard pictogram(s)  |   |                 |
| Signal word  | Danger  |                 |
| Hazard statements  | <p>H315 Causes skin irritation.<br/>         H317 May cause an allergic skin reaction.<br/>         H318 Causes serious eye damage.<br/>         H412 Harmful to aquatic life with long lasting effects.</p>  |                 |
| Precautionary measures   | <p>P261 Avoid breathing vapours.<br/>         P280 Wear protective gloves/eye protection/face protection.<br/>         P305+P351+P338 IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br/>         P310 Immediately call a POISON CENTER/doctor.<br/>         P362+P364 Take off contaminated clothing and wash it before reuse.<br/>         P501 Dispose of contents/container in accordance with local or national regulations.</p> |                 |
| <p><b>2.3 Other hazards</b></p>  |   |                 |
| Hazards for the environment  | <p>Results of the PBT and vPvB assessment:<br/>         PBT: not applicable.<br/>         vPvB: not applicable.</p>   |                 |

### 4. First aid measures

|  |  |  |
|--|--|--|
| <b>4.1</b>                                 | <b><u>Description of first aid measures</u></b>  |  |
| General                                    | Remove contaminated clothing immediately.  |  |
| First aid measures in case of inhalation   | Supply fresh air and consult a doctor as a precaution. If unconscious, lay down and transport in the stable side position. |  |
| First aid measures in case of skin contact | Wash immediately with soap and water and rinse thoroughly.   |  |
| First aid measures in case of eye contact  | Rinse opened eye for 15 minutes under running water and consult doctor.  |  |
| First aid measures in case of ingestion    | Seek medical advice immediately.   |  |
| <b>4.2</b>                                 | <b><u>Most important symptoms and effects, both acute and delayed</u></b>  |  |

|  |   |                 |

| <b>7.3 <u>Specific end use(s)</u></b>  |  |                 |
| No further relevant information available.                                     |  |                 |
| <b>8. <u>Exposure controls/personal protection</u></b>                         |  |                 |
| <b>8.1 <u>Control parameters</u></b>   |  |                 |
| Occupational exposure limits   | The product does not contain any relevant quantities of substances, which need to be controlled in terms of limit values at the workplace.   |                 |
| Additional information   | The basis was lists that were valid at the time of compilation.  |                 |
| <b>8.2 <u>Exposure controls</u></b>  |  |                 |
| Engineering measures   | Ensure adequate ventilation.<br>Eye wash station.  |                 |
| Personal protection equipment  |  |                 |
| General protection and health measures   | Keep away from foodstuffs. Remove contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with skin and eyes.  |                 |
| Eye / face protection  | Close-fitting safety goggles.  |                 |
| Skin protection  | Wear suitable protective work clothing. Depending on the activity and possible exposure, body protection should be chosen, e.g. apron, protective boots, chemical protection suit (according to EN14605 in case of splashes).  |                 |
| Hand protection  | Wear protective gloves. Select glove material on the basis of the penetration times, degrees of permeation and degradation.<br>Material of gloves:<br>Nitrile rubber > 0.4 mm<br>Chloroprene rubber > 0.5 mm<br>Butyl rubber > 0.7 mm<br>Breakthrough time: > 8 hours.<br>The selection of a suitable glove depends not only on the material, but also on other quality characteristics and varies from manufacturer to manufacturer. As the product is composed of several substances, the durability of the glove materials cannot be calculated in advance and must therefore be tested before use. |                 |
| Respiratory protection   | Not required with good ventilation.<br>Respiratory protection in case of high concentrations. Filter A1 EN 14387.  |                 |

|  |                  |                 |

|  | 0.4 Version date  | 14-01-2022      |
| Volatile organic components                      | 0.6%  |                 |
| Evaporation rate                                 | Not determined.   |                 |
| <b>10. Stability and reactivity</b>              |   |                 |
| <b>10.1</b>                                      | <b><u>Reactivity</u></b>  |                 |
| Reactivity                                       | Stable under normal conditions.   |                 |
| <b>10.2</b>                                      | <b><u>Chemical stability</u></b>  |                 |
| Stability  | Stable under normal conditions.   |                 |
| Thermal degradation                              | No degradation if used as directed.   |                 |
| <b>10.3</b>                                      | <b><u>Possibility of hazardous reactions</u></b>  |                 |
| Hazardous reactions                              | No known hazardous reactions.   |                 |
| <b>10.4</b>                                      | <b><u>Conditions to avoid</u></b>   |                 |
| Conditions to avoid                              | High temperatures.  |                 |
| <b>10.5</b>                                      | <b><u>Incompatible materials</u></b>  |                 |
| Materials to avoid                               | No further relevant information available.  |                 |
| <b>10.6</b>                                      | <b><u>Hazardous decomposition products</u></b>  |                 |
| Hazardous decomposition products                 | No known hazardous decomposition products.  |                 |
| <b>11. Toxicological information</b>             |   |                 |
| <b>11.1</b>                                      | <b><u>Information on hazard classes as defined in Regulation (EC) No. 1272/2008</u></b> |                 |
| Acute toxicity                                   | Based on the available data, the classification criteria are not met.                   |                 |
| Skin corrosion / irritation                      | Causes skin irritation.   |                 |
| Serious eye damage / irritation                  | Causes serious eye damage.  |                 |
| Aspiration hazard                                | Based on the available data, the classification criteria are not met.                   |                 |
| Respiratory or skin sensitisation                | May cause an allergic skin reaction.  |                 |
| Carcinogenicity                                  | Based on the available data, the classification criteria are not met.                   |                 |
| Mutagenicity                                     | Based on the available data, the classification criteria are not met.                   |                 |
| Reproductive toxicity                            | Based on the available data, the classification criteria are not met.                   |                 |

|  |  |                 |
|--|--|-----------------|
| <b>MSDS</b><br><b>MATERIAL SAFETY DATA SHEET</b>   | 0.1 Product  | <i>Easy Gel</i> |
|  | 0.2 Status   | Active          |
|  | 0.3 Version  | 5               |
|  | 0.4 Version date   | 14-01-2022      |
| Specific target organ toxicity – single exposure   | Based on the available data, the classification criteria are not met.  |                 |
| Specific target organ toxicity – repeated exposure | Based on the available data, the classification criteria are not met.  |                 |
| <b>11.2 Information on other hazards</b>           |  |                 |
| Other hazards                                      | No further relevant information available.   |                 |
| <b>12. Ecological information</b>                  |  |                 |
| <b>12.1 Toxicity</b>                               |  |                 |
| Ecotoxicity  | No further relevant information available.   |                 |
| <b>12.2 Persistence and degradability</b>          |  |                 |
| Persistence and degradability                      | No further relevant information available.   |                 |
| <b>12.3 Bioaccumulation</b>                        |  |                 |
| Bioaccumulation                                    | No further relevant information available.   |                 |
| <b>12.4 Mobility in soil</b>                       |  |                 |
| Mobility   | No further relevant information available.   |                 |
| <b>12.5 Results of PBT and vPvB assesment</b>      |  |                 |
| Evaluation   | PBT: not applicable.<br>vPvB: not applicable.  |                 |
| <b>12.5 Endocrine disrupting properties</b>        |  |                 |
| Endocrine disrupting potential                     | None of the ingredients are listed.  |                 |
| <b>12.6 Other adverse effects</b>                  |  |                 |
| Other adverse effects                              | Harmful to fish.   |                 |
| Further ecological information                     | Water hazaroudousness (NL): A (3) Harmful to aquatic organisms. May cause long-term adverse effects in the aquatic environment.<br>Generally not hazardous to water. Must not be discharged into surface water or drainage ditch undiluted or unneutralised. |                 |
| <b>13. Disposal considerations</b>                 |  |                 |
| <b>13.1 Waste treatment methods</b>                |  |                 |
| Waste from residues / unused products              | Must not be disposed of together with household waste or drained into the sewage system.   |                 |
